WINNIPEG, April 20.

A big strike is pending on the Union Pacific. The Grand Trunk's half yearly report is unsatisfactory.

Three hundred anarchists and socialists have been arrested in Italy and jailed.

Another had cyclone has occurred in Kansas. Much property has been destroyed.

The Duchess of Sutherland has been sent to jail for six weeks for contempt of court.

The Ottawa board of trade has passed a resolution favoring Henry George's single tax.

Reported in Ottawa that the C.P.R. will build through the Crow's Nest pass this year.

Zante, Greece, was visited by a terrible earthquake. The town has been wiped out and many people killed.

Edwin Booth the great tragedian has been stricken with paralysis in New York. He is unconscious and cannot live.

United States Counsel Taylor is in the Winnipeg hospital in a dying condition. The doctors say he cannot live.

Three hundred European immigrants are quarantined in Winnipeg. Small pox developed amongst them on the train from Halifax. The strictest quarantine is being enforced.

It is announced from Ottawa that the government will abolish the specific and reduce the ad valorem duties. Minister Foster has asked representatives of the leading trades and industries of Montreal to meet him and discuss the tariff with a view to a general revision.

LOCAL.

TRAIN left Calgary on time to-day with two coaches of passengers.

T. B. HENDERSON of Wetaskiwin is in town. Mr. Henderson has been ill for some time and has not yet entirely recovered.

AFTER May 1st the barber shops in town will be closed on Tuesday and Friday evenings at 6:30 on other evenings they will close at 9 o'clock.

The Edmonton real estate and investment company has completed a neat building on Whyte avenue, South Edmonton, for use as a branch office. H. B. Round will be in charge.

AFTER all, the spring show of the Edmonton agricultural society, which was announced for to-day, has been postponed until Saturday, April 29th, at 5 p.m. It will be held on the Edmonton race track.

The Edmonton district for the registration of births, deaths and marriages has been divided into St. Albert and Edmonton. C. F. Strang is registrar for the latter, and Dr. Bent of St. Albert for the former.

INSR. CHALMERS has resigned from the Mounted police force to take up work as a Dominion Lands Surveyor. He has been awarded a contract of township subdivision this season near Egg lake south of Victoria.

At the council meeting last night it was decided to appoint a pound keeper. Notice was given of a fire limit by-law. It was agreed to advertise for tenders for the town's debentures for the sum of \$11,770.50. The petition presented on behalf of the Electric light company was referred to a committee for consideration.

A LETTER from Fairfield, Spokane Co., Washington, says that the letter written by Mrs. Chapman of South Edmonton is being circulated in that country for all it is worth. However it creates the impression that the story is overtold. Plowing was not expected to commence before the middle of April in Spokane county.

THE ice in the river moved a little yesterday, closing up the boat channel cut through on Monday, and opening a little below Ross point. It moved a little more during last night, but this forenoon people were still crossing on foot, using a small boat at each side of the main ice. The ice would be out already but that river has not yet risen enough to cover the bars. A very little rise of water will clear the ice out.

ALEX. LUCAS, mayor of Calgary and immigration agent of the Northwest government arrived on Monday's train, to remain until Friday. The immigration office in Toronto which was under Mr. Lucas' management has been closed for the summer, which is to be very greatly regretted, as the work done on behalf of the Manitoba office there instead of being favorable is distinctly hostile to the Territories, and on account of the proximity of Manitoba to the Territories, the influence of the Manitoba office for harm is very much greater than any other agency could be.

C. O. SWANSON, Swedish immigration agent to the New England States arrived on Monday's train. He brought a party of Swedish settlers to Wetaskiwin who propose to settle in townships 43 and 44, range 22, in the vicinity of Red Deer lake, south of Battle river. The party comprised 31 persons, ten of whom are heads of families, and they brought three car loads of effects. Finding no immigrant accommodation at Wetaskiwin the emigrants clubbed together and put up a temporary building of lumber at their own expense. Mr. Swanson says that 100 homesteads have been entered for by Swedes from the New England States in the townships south and east of Wetaskiwin, and if the unexpected does not happen the movement of population into those townships will amount to thousands in the near future. The first Swedish delegates came out last summer as the result of Mr. Swanson's exertions. The people amongst whom he works were farmers in Sweden, but are now employed in the New England cities. They are anxious to secure land for themselves and become farmers once more.

A MEETING of the cricket club was held last night in the Imperial bank, but was not very well attended. J. F. Adamson occupied the chair. The accounts of last year were gone into and showed a deficit of a considerable amount. The following office bearers were elected: Dr. H. C. Wilson president; Alex. Taylor vice president; F. Hardisty captain and secretary treasurer pro tem. Committee, Messrs. Adamson, Shoop, Morris. It was decided that \$1 would be the subscription for the current year. The club has received an invitation from Calgary to enter the tournament to come off soon at that place. It is expected that the club will have more matches this year than last by playing both Clover Bar and Fort Saskatchewan. Both places are now preparing for the coming season.

A SPOKANE, Washington farmer, asks: "For the land's sake tell us what saskatoon berries are. Everybody asks me that." The saskatoon is a berry about the size of a currant and grows on a bush or small tree varying in height from a few inches to twenty feet, all sizes bearing fruit. The berry is soft, of a blue black color, with very small seeds and a flavor something like a ripe harvest apple. The blossoms come very early in the season and are consequently very liable to be nipped by frost, so that the bushes do not bear every year, but when they do bear the amount of fruit is something astonishing. The bushes grow everywhere in this district and the berries are ripe in July. They are very good when eaten fresh, and uncooked, or when dried and cooked, but they do not make good jam, as cooking makes the skins tough.

A LARGELY attended meeting to organize a lawn tennis club was held at the Imperial Bank on Tuesday evening last. Rev. D. G. McQueen occupied the chair and was elected president of the club. G. W. R. Almon was elected vice president with Mr. Morris secretary-treasurer. The following are the committee: Messrs. Hearn, Slocock, Emery, Vaudin, and the secretary treasurer. A vote of thanks to the committee of the Methodist church was passed for the use of the tennis ground last year. It was arranged to leave the subscription in the hands of the committee in order that they may ascertain the probable expense necessary.

They will also make arrangements for the grounds and will try and obtain the same as last year, which with a little improvement ought to make a good court. The ladies will probably have two days in the week at their disposal.

THE auction sale of lands on the South Side Indian reserve on Tuesday was fairly well attended but was not very successful. The reasons were chiefly that as the season is backwards purchasers had no proper opportunity to satisfy themselves as to the value of the respective quarter sections, and besides the river being somewhat dangerous at the present time prevented a considerable number from attending. In all 23 quarter sections were sold, at prices ranging from \$3.75 to \$4.10, excepting the northwest west quarter of section 8 which went at \$5.50. The sale commenced at 2 o'clock and was closed at 3:30, the auctioneer, Mr. Bourchier, of Bourchier & Gouin, Calgary, announcing that it would be adjourned for about a month. It is to be regretted that a complete sale was not made, and it is to be hoped that such arrangements will be made next time as will assure success. Hayter Reed, Indian commissioner, came to Red Deer, but did not come on to Edmonton to attend the sale.

THE BULLETIN has received several letters from people in Edmonton and in the United States commenting upon and asking explanations regarding the letter of Mrs. E. C. Chapman of South Edmonton in the Palouse News, which was republished in the BULLETIN a few issues ago. Some of the writers are very personal in their remarks, which in this case is not called for nor is it permissible in these columns. One writer says: "I have travelled over this country during the past fall and winter and have been a resident for the past four years, and I most emphatically declare that there is no district in the United States, the Dominion of Canada, or Manitoba and the Northwest that has greater facilities than we have here. We have no blizzards, such as other parts are blessed with. No snow banks to block our railroads or public roads, plenty of the very best of fuel. Coal in abundance and the very best of pasture in the summer season. I will now give you a few facts for the Palouse farmers to digest and see if they can beat it. I have been feeding a good deal of stock which with the exception of milking cows and working horses have not been inside of a building or cover since the time I took them in and are in as good order as any one could wish to have them at this season, and all in any part of the country I have travelled in are in the same condition. Morning and evening they are fed with hay and during the day with straw and well watered all the time. As for our grain, seeing is believing, and I would invite all the farmers of Palouse to examine our grains which are now being exhibited in their country and see if they are only screen-

ings."

EMIGRATION.

The report of the department of interior for the year 1892 is to hand and contains a vast amount of valuable and encouraging information regarding the Northwest and particularly this northwestern part of the Northwest. The following statement, however, which appears amongst the first pages of the book, made on the authority of the deputy minister of interior, is altogether misleading and likely to result in serious injury to the country if it remains unchallenged.

The information which reaches the department from the best informed quarters indicates that the exodus of Canadian farmers to the United States has practically come to an end, and that the United States railway corporations have found it unprofitable to maintain their colonization agencies in Canada, and have to a very large extent closed them up."

It is true that the tide of immigration from Eastern Canada is turning from the States to the Northwest; but to say that the movement to the States has ceased or that United States railway companies have ceased their efforts and withdrawn their agents is incorrect. There are a large number of paid agents of United States railway companies now at work amongst the farmers of Ontario, and they are having a certain measure of success. The walls of every Grand Trunk railway station are papered with their advertisements, and the same is true of many post offices and even some C. P. R. stations. The agents sent down during the past winter by the C. P. R. on the recommendation of the Northwest government heard of the operations of these agents, saw some of them at work, in many cases met with the results of their work and advertisements, and in some cases were successful in undoing the harm that had been done. This is speaking generally. Now to come down to particulars in a single but very important case. There is at the present time, a movement being organized in Minnesota and Dakota for the purpose of removing the bulk of the settlers of the Parry Sound district to those States during the coming summer, and there is every prospect of its being injuriously successful. The facts are as follows: The districts of Muskoka, Parry Sound, Nipissing and Algoma in Northern Ontario were settled some eight to twenty years ago by people from the older parts of the province, who went in under certain conditions and with certain expectations. As the matter stands the conditions have changed and the expectations have not been realized. The time that most of the people have spent there has been practically lost as far as making a profitable farm is concerned, and they desire to remove to where they can make a new start under more favorable circumstances. They have a considerable quantity of effects but very little money, and being unable to realize on their farms have no means of raising money except by their stock and effects, without which they cannot farm wherever they may go. Last year a colony for Edmonton was worked up in the Parry Sound district through the exertions of Messrs. T. G. Pearce and Hugh Irwin, and certain favorable terms were granted by the C. P. R. for the transport of their stock and effects to Edmonton. The colony came to Edmonton nearly all of its members have remained and are well satisfied. They have settled on farms; have become a valuable addition to the producing power of the district; and so far as heard from have carried out their arrangements with the C. P. R. satisfactorily. All reports agree that the feeling in the Parry Sound district amongst the settlers who are there is in favor of removing to Edmonton. But the ordinary railway rates are so high as to be almost prohibitory to men circumstanced as the people there are; and the C. P. R.—for reasons unknown—refuses to give the same terms as were given the colony of last year. All agree that if such terms are not given the movement will be very light. Right here steps in the Minnesota and Dakota scheme. There is plenty of land to be had in these two states that would be greatly to their interest to get such people as those of Parry Sound to occupy, and as soon as navigation opens the cheapest of cheap transportation can be secured for them by steamer from Parry Sound to Duluth, and on by rail to the vacant lands which they are desired to occupy. This is not a fancy sketch, it is a plain statement of fact. It is presented for the serious consideration of the minister and deputy minister of the interior and of the C. P. R. company and of the government of the Territories. When cheap rates and all manner of inducements are being held out to people to

come from the States to settle in the Northwest, and large direct expenditures are being incurred as well; it seems to be a questionable policy which refuses to give the same inducements to our own people that we offer to strangers—however desirable—and permits them to be taken from us by exactly the same means as we employ to get settlers from the States to come to the Northwest. This is certainly a case in which a deviation from the policy of refusing to assist the movement of people from one part of the Dominion to another would be as cheap as they do down east, and in fact in some cases cheaper."

MONEY TO LOAN.

MONEY TO LEND. The Dominion Building & Loan Association advances money on town property either to build or to buy land (in which case advances will be made as construction progresses) for any purpose on property already occupied. A large amount has been already advanced in Edmonton. The Association also offers means of quick accommodation by monthly payments which are promptly re-invested. Loans made between 1st of April and 1st October, \$18,800.

A REPLY TO AN IMPORTANT QUESTION

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

Many of the lines have been personally selected in the best English Markets.

WETASKIWIN.

Mark Twain attested his devotion to his country by sending all his wife's relations to the war. Our immigration department prove this by their economical or rather prenurious treatment of immigrants coming in. Only male adults go to war and are provided with music en route and some degree of comfort after reaching their destination, while the incoming settlers bring their women and children who are while on their way kindly furnished with a talking machine and after reaching their destination—nothing—simply dumped out on the prairie and that at this season of the year, especially this year, is to put it mildly—monstrous.

From the settlers who have come in lately, I hear a good deal of complaint about the quarantine regulation. A man who with a large family got here last week said he started with two teams of oxen and one milk cow—all held up for 90 days at the port of entry—which means no crop for him this year, besides the loss of the use of the cow is an inconsiderable thing to a family. Great and mysterious indeed is the wisdom of those who are the cause of all this. Their ways are certainly not as human men's ways.

Building here is quite active. We have this month completed several dwellings. A barber shop and the Higgins restaurant, where Ted himself can be found at all times with his spotless white apron with a back ground of neatly trimmed, beautiful red whiskers. As a short order mechanic Ted has few equals. Speaking of white aprons—Jack McNamara the efficient, obliging and good looking clerk at John West's store adorns himself with an apron that beats 'em all.

The C. P. R. Co. did us one good turn by giving us Mr. Kirkpatrick an affable accommodating young gentleman, as station agent, who I am told can take from their patrons the exorbitant freight charges and send the victims away feeling pleasant—besides next to policeman Stirling he is one of the handsomest young men in town.

The new Walker Hotel has just been opened by Mr. Wentworth of Calgary who has fitted it up with everything absolutely new and as he sets a first class table it makes in all a very de stirable place to stop. Mr. Wentworth is very entertaining, can talk with as little effort as an immigration agent.

April 17th, 1893.

BRUTUS.

Prof. Tyrell goes this season to an entirely unknown region. He will proceed by rail to Edmonton and from there he will drive northwest one hundred miles to the Athabasca river and take the river for four hundred miles until he reaches Athabasca lake. Professor Tyrell will get Canadian canoeoes and strike northward for about eight hundred miles to the west shore of the Hudson Bay, passing through an entirely unknown region. It is more or less doubtful whether the professor will be able to reach the bay. Travelling by canoes it is necessary that waterways be found without too long portages. Professor Tyrell says that he would have three short portages aggregating eleven miles to start from Athabasca lake; from that point he would have to proceed by a series of unknown waters. Prof. McConnell it is understood, will spend the summer and winter in the mountains at the head of the Peace river and will return next year.

Newspaper reports of the cyclone and blizzard of April 12th in Iowa, Kansas and Missouri are to hand. The amount of property destroyed was immense and a large number of people were killed. In Winnipeg it was the worst blockade of the season for the street railway company the snow plow being kept going all day. The storm came from the southwest.

The Toronto News has started the report that Sir John Thompson is looking for a position on the Imperial privy council, and is likely to get it. This means his early retirement from Canadian politics.
